

Society of automotive engineers
S. A. E. Journal

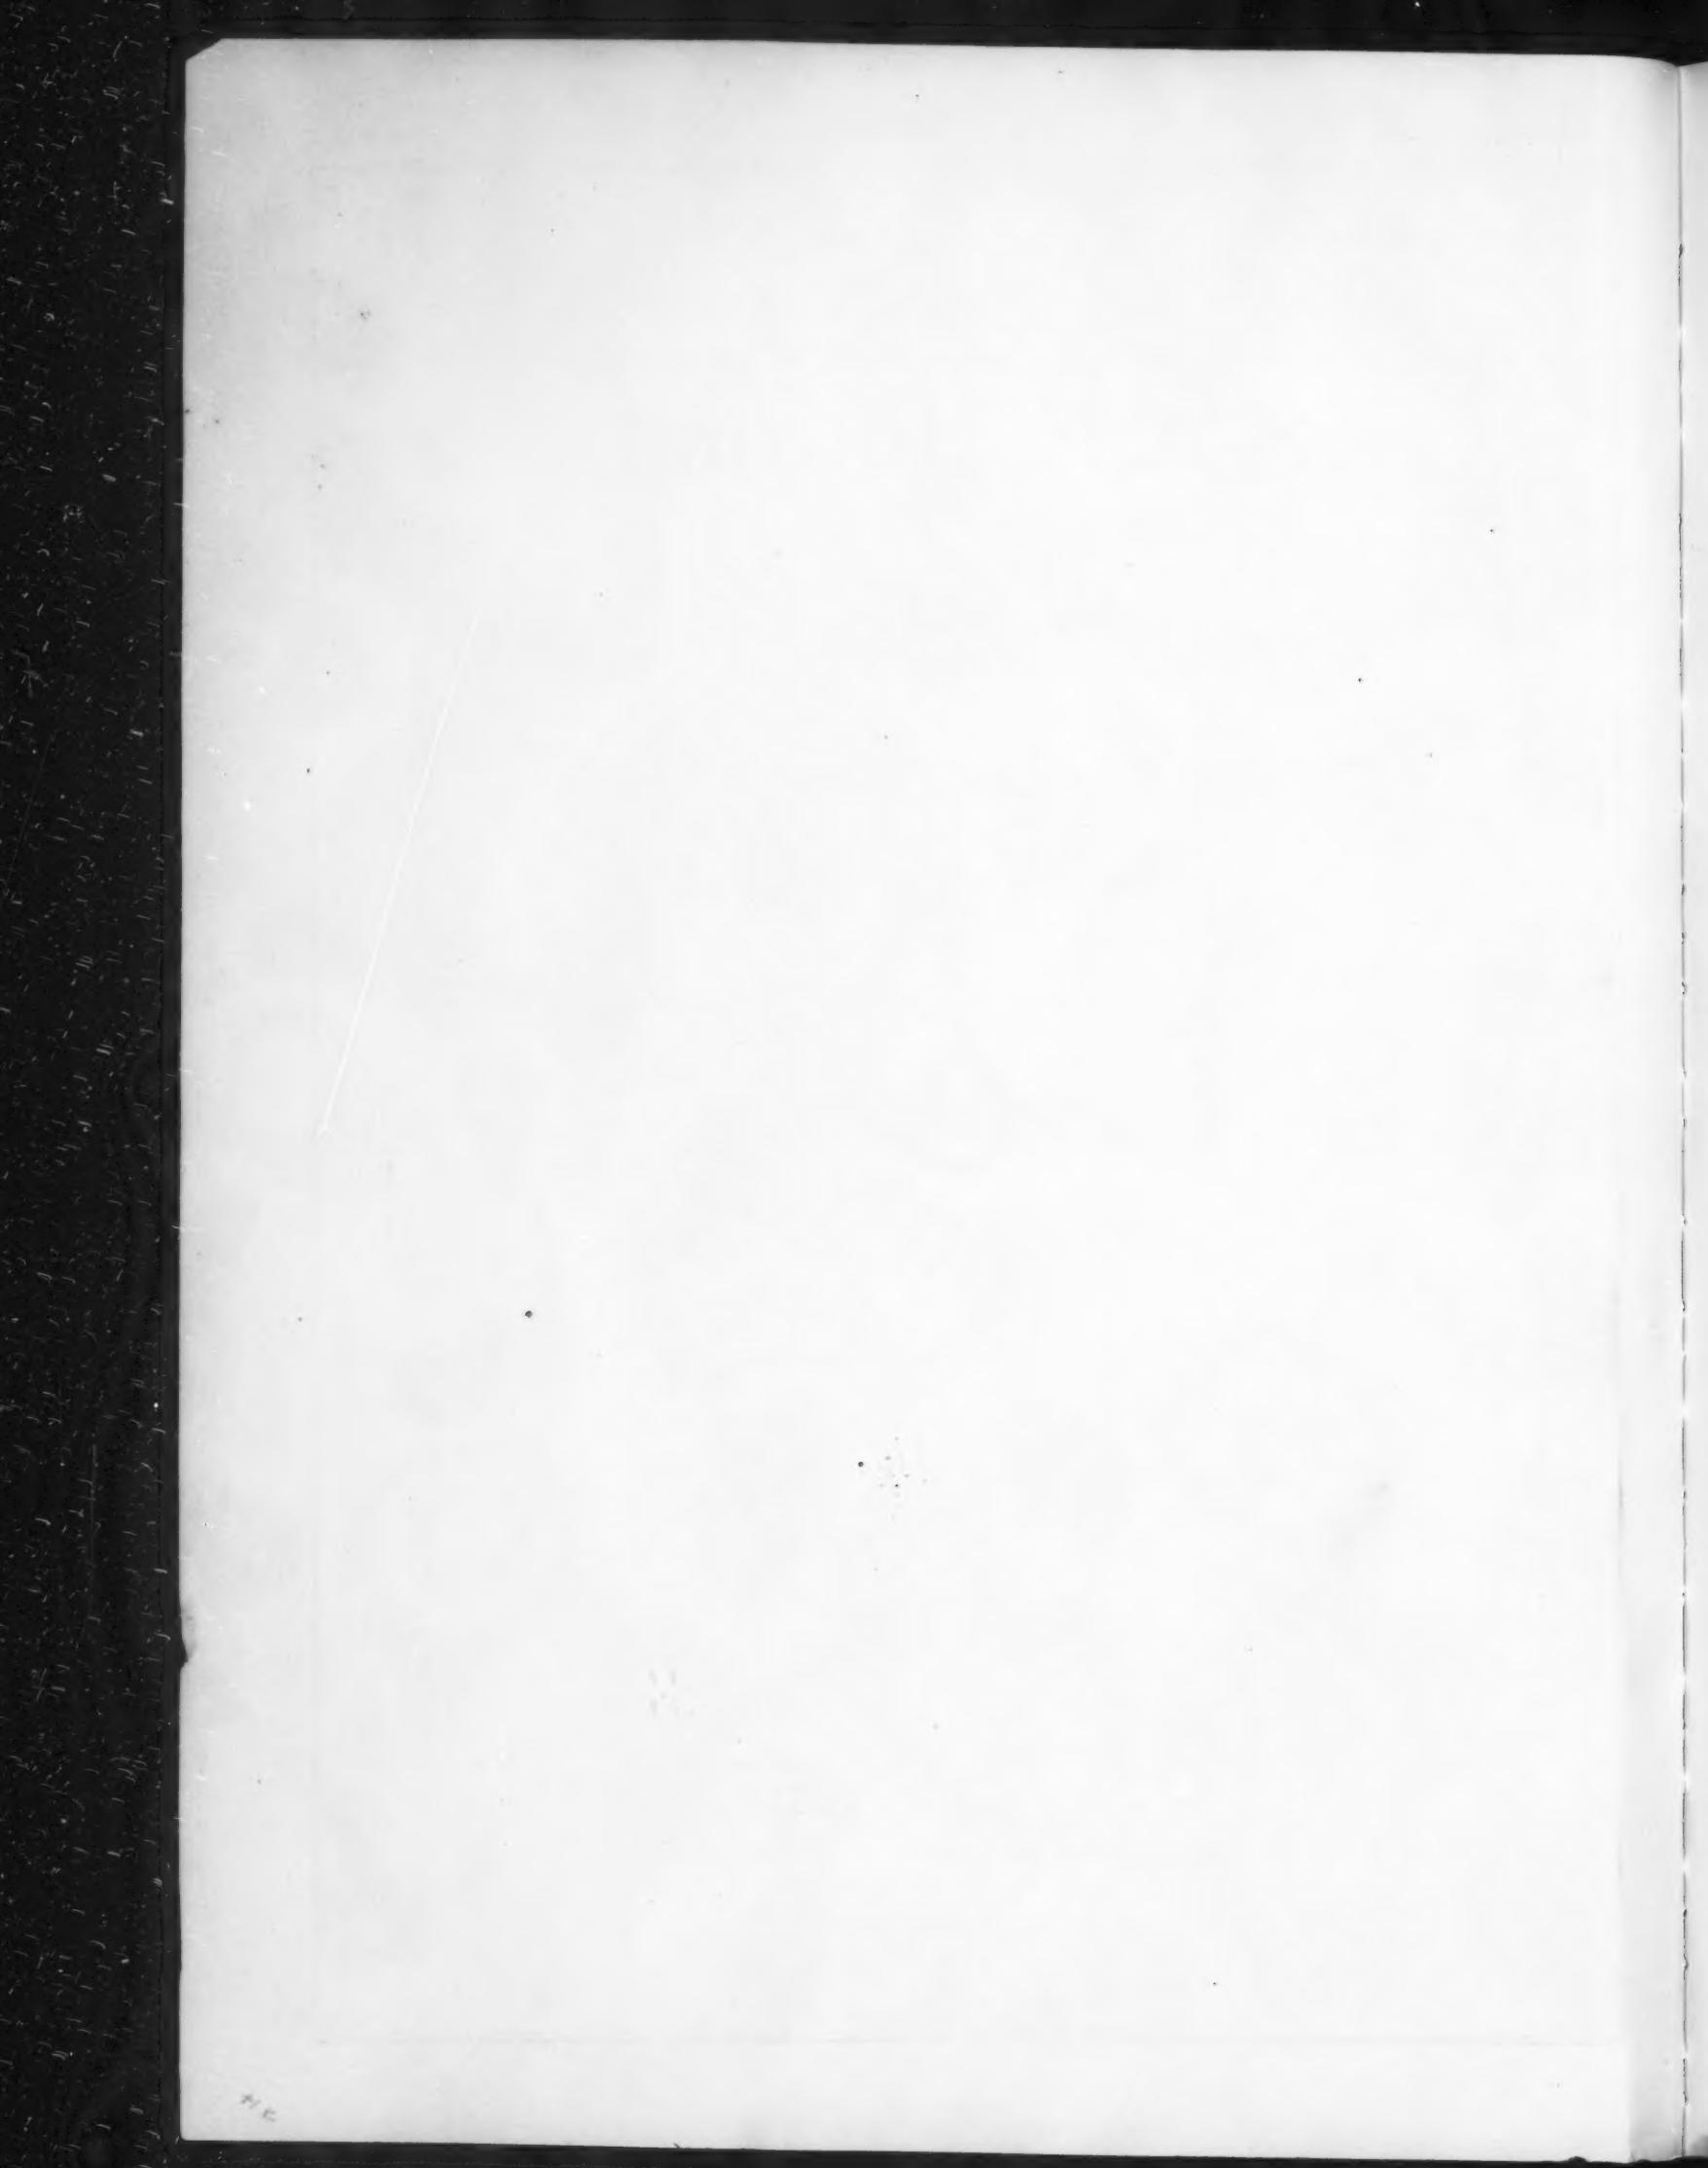

DECEMBER, 1929

INDEX TO VOLUME XXIV

January-June, 1929

THE SOCIETY OF AUTOMOTIVE ENGINEERS, INC.
29 WEST THIRTY-NINTH STREET
NEW YORK CITY

Eny. Lib.
Direct

S. A. E. JOURNAL

INDEX TO VOLUME XXIV, JANUARY-JUNE, 1929

DIVISION OF PAGES BY MONTHLY ISSUES

January	1-110	March	257-360	May	457-566
February	111-256	April	361-456	June	567-672

(D) indicates discussion published; (N) mention in news report; (P) paper published.

Author Index

AUTHOR	TITLE OF PAPER	PAGE
Aldrich, Elizabeth W., Oscar C. Bridgeman and Hobart S. White	Vapor-Pressure Data on Motor Gasolines (N) 116	(P) 488
Alfaro, Heraclio	Possible Improvements of Present-Day Aircraft (N) 99	252
Allen, H. H.	Results to Date in Headlight Research (N) 117	
Arnstein, Dr. Karl	Developments in Lighter-Than-Air Craft (N) 11 (P) 465	
Austin, Sir Herbert	European Automobile Developments (N) 248	
Banks, W. F.	Applying the Motor-Vehicle to Business (P) 621 (N) 653	
Barnard, D. P., 4th	The Significance of Aviation Fuel Specifications (N) 250	
Baron, L. A.	Accounting for Depreciation as a Production Cost (P) 126 (N) 204	
Barrett, Charles G.	Diesel Engines in Marine and Stationary Service (N) 449	
Barrett, W. J.	Enlightened Selfishness in Business (N) 260	
Beckhard, Bruno	Development of the Outboard Engine (P) 266	
Bissell, Richard E., and Gordon T. Williams	Automotive Poppet-Exhaust-Valve Design (N) 349, 450	
Blanchard, Donald	Fleet-Superintendent Qualifications (P) 52 (N) 106	
Boeing, W. E.	Night Flying with Mail, Express and Passengers (N) 664	
Boeing, W. E.	Passenger-Transport Operation (N) 8	
Bridgeman, Oscar C., Elizabeth W. Aldrich and Hobart S. White	Vapor-Pressure Data on Motor Gasolines (N) 116 (P) 488	
Brooks, Donald B.	Economic Fuel-Volatility and Engine Acceleration (N) 116 (P) 609	
Brooks, Donald B.	Fuels and Fuel Testing (N) 353	
Broome, C. E.	Operating Factors and Engine Acceleration (N) 116	
Bushnell, Sherman W.	Selection of Speed Reducers for Conveyors (P) 57 (N) 91	
Canning, E. A.	Ignition (N) 251	
Carlson, R. E.	Automotive Diesel Engines (N) 367	
Carmichael, Thomas J., and Merritt L. Fox	The Incandescent Lamp for Automotive Lighting (N) 557	
Chamberlain, R. C.	Gyro-Accelerometer Analysis of Riding-Quality (P) 626	
Clark, Dr. George L.	This Body Business (N) 366	
Clark, H. H., and W. T. Donkin	Spectrographic Studies of Tetraethyl Lead in Gasoline (N) 372	
Clark, W. M.	Electric Telemeter and Valve-Spring Surge (N) 228 (P) 315	
Clarkson, C. F.	Operation and Maintenance Requirements (P) 523	
Cleeton, G. U.	Standardization in the Automobile and Aeronautic Industry (P) 30	
Cox, A. B.	Psychology of Maintenance Service (N) 260	
Crane, H. M.	Dispelling the Mystery of Gear-Tooth Breakage, Wear and Noise (P) 67 (N) 91	
Cummins, C. L.	Relation of Automotive Engineering to Aeronautics (P) 374	
de Sakhnoffsky, Alexis	Diesel Engines (N) 556	
Dietrich, Raymond H.	Body Design (N) 102	
Dingley, Bert	Body Design (N) 102	
Domonoske, Arthur B.	Improvements in Passenger Cars (N) 349	
Donkin, W. T., and H. H. Clark	Design and Characteristics of Automotive Springs (N) 106	
Dunnell, Jacob	Electric Telemeter and Valve-Spring Surge (N) 228 (P) 315	
Eisinger, J. O., and V. Voorhees	Outboard Hulls (N) 666	
Eskuche, Oscar	Effect of Gum in Gasoline (N) 222 (P) 584	
Evans, E. S.	Brakes and Brake-Linings from a Service Viewpoint (P) 299	
Favary, Ethelbert	The Story of Petroleum (N) 369	
Favary, Ethelbert	Casting Steel Axle-Housings (N) 338	
Favary, Ethelbert	Legislation and the Six-Wheel Truck (D) 46 (N) 106	
Fishleigh, Walter T.	The Production of Nickel-Steel Castings by the Electric-Furnace (N) 251	
Fitzsimmons, J. T.	An "Impossibility" Realized (P) 124	
Foss, Clarence M., and James D. Mooney	Ignition Requirements for Higher Compression Engines (N) 237 (P) 306	
Fox, Charles	Economic Requirements of Automotive Vehicles Abroad (N) 92, 117 (P) 513	
	The Development of the Fire Engine (N) 372	

AUTHOR	TITLE OF PAPER	PAGE
Fox, Merritt L., and Thomas J. Carmichael	Gyro-Accelerometer Analysis of Riding Quality	(P) 626
Frost, Jack	The Cadillac Transmission	(N) 559
Gardiner, Arthur W.	Atmospheric Humidity and Engine Performance	(P) 155
Garrett, L. A.	Two-Cycle Diesel Engine	(N) 239
George, V. G.	Wind-Tunnel Tests of the Automobile-Type Fan	(N) 259
Gillmore, Brigadier-General W. E., U.S.A.	Work of the Materiel Division of the Army Air Corps	(N) 350
Given, G. C.	External Body Finishes of Automobiles	(N) 547
Glynn, F. K.	The Economics of Motor-Vehicle Operation and Maintenance	(N) 104
Graham, Joseph B.	Factory Organization	(N) 364
Graham, R. N.	Profitable Motorcoach Operation	(N) 97, 337
Green, G. A.	Problems of Motorcoach Design and Manufacture	(P) 278
Griffith, L. M.	(N) 97, 204	(P) 166
Griswold, W. R., and J. G. Vincent	Diesel Engines	(N) 259
Guernsey, Charles O.	A Cure for Shimmy and Wheel-Kick	(N) 230
Hall, E. J.	Motor Rail-Cars	(P) 388
Hardy, Dr. A. C.	Reducing Transportation Costs by Means of Engine Design	(N) 571
Harper, Lieut. C. B., U.S.N.	The Greenland Flight	(N) 367
Hart, James	Aircraft Propellers	(N) 223
Haskell, L. W.	Recent Improvements in Passenger-Car Design	(N) 663
Hassell, Bert A.	Foam Method of Fire Extinguishing	(P) 17
Havill, Lieut-Com. Clinton H., U.S.N.	Relation of Time-Study to Production	(N) 550
Hecox, F. C.	The In-Line Air-Cooled Engine	(P) 273
Hegenberger, Lieut. Alfred F., U.S.N.	The Canadian Store-Door Delivery	(N) 8
Henry, R. A. C.	Fog-Flying Possibilities	(P) 425
Heron, S. D.	Body Designs Abroad	(N) 442
Hill, L. Clayton	Maintenance of Air-Cooled Engines in Commercial Operation	(P) 376
Hobbs, L. S., and Edward Hubbard	A Study of Engine-Oil Filters	(N) 102
Hoffman, A. H.	What I Think Engineers Are Good For—and How	(N) 3
Hoffman, Paul G	World Engineering Congress	(N) 252

TITLE OF PAPER

		PAGE
Vibration in Motor-Vehicles	(N)	560
Critique of Airplanes	(N)	8
Chromium-Plating Progress	(N) 241, 444	(P) 397
Gasoline	(N)	363
Effect of Six-Wheel Vehicles on Highway Design	(P) 41	(N) 106
High-Speed Oil Engines	(N)	666
Recent Improvements in Passenger-Car Design	(N)	348
Modern Progressive Production Methods	(N)	572
Automobile Bodies	(N)	263
Cost and Quantity in Airplane Manufacturing	(N) 6	(P) 270
Dual Carburetion and Manifold Design	(N) 238	(P) 593
Radial Aircraft-Engine Maintenance	(N)	250
Economic Requirements of Automotive Vehicles Abroad	(N) 92, 117	(P) 513
The B-K Brake Booster	(N)	103
The Beardmore Diesel Engine	(N)	367
Crankcase-Oil Dilution	(N)	450
Lubricants and Fuels	(N)	558
Body Forms of Automobiles and Airplanes	(N)	349
Power-Transmission Engineering	(D) 54	(N) 91
The A. B. C. of Stainless Steels	(N)	263
Twenty Years of Aviation Progress	(N)	542
Improvements in Passenger-Car Design	(N)	349
Axle Ratios and Transmission Steps	(N) 120	(P) 479
Chromium-Plating Progress	(N) 241, 444	(P) 397
Diesel Engines	(N)	259
Material Handling in the Pontiac Assembly Plant	(P) 417	(N) 444
The Manufacture and Heat-Treatment of Automotive Leaf Springs	(N)	251
Transmission Maintenance	(N)	559
Prevention of Corrosion in Duralumin Airplane Structures	(P)	24
The Stability of Airplanes	(N)	662
The Aeronautic Powerplant	(N)	543
Address at Annual Dinner	(P)	111
Trend of Automobile Design	(N)	262
Fleet-Maintenance Fundamentals	(N)	652
Motorcoach Maintenance	(N) 100, 442	(P) 405
Recent Developments in Short Mooring Masts and Handling-Trucks	(N) 11, 94	
Factors Governing Oil Performance	(N)	363
Operation Experience of the National Air Transport	(N)	664
Cutting-Oils	(P)	90
Temple High-Velocity Penetrating Devices	(N)	242
Modern Friction-Materials	(P)	298
Improvements in Passenger-Car Design	(N)	348
Review of the Automobile Shows	(N)	262
Development and Progress of Molded Brake-Lining	(P)	295
Better Chassis Lubricant	(N) 223	(P) 604
Iddiosyncrasies of Valve Mechanisms and Their Causes	(P) 133 (N) 227	(D) 327
Fluidity and Other Properties of Aviation-Engine Oils	(P) 149	(N) 223
History and Development of Aviation Engines	(N) 545, 661	
Motorcoach and Truck Tire Change-Over from Solids to Pneumatics	(N)	350
Lockheed Hydraulic Brakes	(N)	103
Westinghouse Automotive Brakes	(N)	103
Service-Station Arrangement and Equipment	(N)	249
Causes and Methods of Elimination of Vibration and Rumble	(N)	223
Some Thoughts on Knock Testing	(N)	222
New Foundation of Wealth	(N)	368
Oil Control in Combustion-Chamber Lubrication	(N)	369
Desirability of a Large-Bore Engine	(N) 239, 346	(P) 282
Economics of the Chevrolet Powerplant	(N)	555
Improvements in Passenger-Car Design	(N)	348
Airplane Engines of 125 Hp. and Less	(N)	662
Light-Car Design	(N) 263, 561	
Long-Haul Passenger Transportation	(P) 61	(N) 106
Flying to the West Indies and Central America	(N)	664
European Diesel Engines Reviewed	(N)	259
A Third Stage in Aircraft Design	(P)	14
A Cure for Shimmy and Wheel-Kick	(N) 230	(P) 388
Effect of Gum in Gasoline	(N) 222	(P) 584
Technical Requirements of Fire Fighting and Fire Protection	(N)	560

Bolt Standardization		85, 211
Brakes		
Aircraft		9
Drum material		298, 333
Hydraulic		103
Linings		
BRAKES AND BRAKE-LININGS FROM A SERVICE VIEWPOINT		299
BUYERS' TESTS FOR BRAKE-LINING		443
DEVELOPMENT AND PROGRESS OF MOLDED BRAKE-LINING		295
MODERN FRICTION-MATERIALS		298
Coefficient of friction		296, 298, 303, 304
Development		295
European practice		304
Grease, effect of		301, 302, 303
Manufacture		297
Metal-to-metal		103
Molded, advantages		297, 298, 300, 303
Motorcoach, life of		652
Rivetless		103
Quality variations in		443
Temperature, effect of		296, 297, 299, 302, 303, 304, 305
Tests		232, 296
Trailer		103
Water, effect of		296, 297, 298, 300, 301, 302
Woven, advantages		301
Woven, characteristics		297
Power consumed by		299
Pressure distribution		301, 303, 333
Progress		248, 262, 332, 348
Requisites in		301
Service		300, 301, 303, 304
Standardization necessary		302
Temperatures		263
Testing		300, 301
Vacuum, B-K and Westinghouse		103
C		
Carbon Monoxide Research		187
Carburetors and Carburetion		
Accelerating wells, mechanical		247
Aircraft engine		3, 4, 180, 251, 351, 381, 545, 593
Dual		
DUAL CARBURETION AND MANIFOLD DESIGN		238, 593
Advantages of		238, 593
Idling stability		238, 593
Manifold design		238, 593
Performance with single and dual carburetors compared		238, 593
Use of, increasing		262
High-test gasoline, difficulties with		118, 520
Humidity effects		156
Improvements, possibilities of		37
Preheating air, effect of		611
Temperature control		62, 238, 353, 593
Cartels, International		143
Cellulose in Industry		132
Chromium Plating		
CHROMIUM-PLATING PROGRESS		241, 397
Aluminum		400
Cost		241, 400
Development		397
Inspection		241, 399
Plating methods		104, 397
Temperature resistant		242, 400
Wear resistant		104, 241, 262, 333, 399
Clutches		
Progress in		36, 248, 333
Sliding described		481
City Planning, Effect of Aviation on		371, 576
Competition, Prize for Silent Gearing Paper		305
Conduit, Non-Metallic Flexible, Standardization		638

Personal notes	107, 253, 355, 453, 562, 667	
President, W. R. Strickland inducted as	123	
Reorganization	97, 98, 100, 101, 106, 123, 214	
Roster	265	
Sections		
Buffalo	105, 349, 450, 560, 666	
Canadian	353, 450, 542	
Chicago	250, 348, 372, 557, 663	
Cleveland	100, 263, 371, 554, 572	
Dayton	372, 561	
Detroit	101, 265, 347, 364, 366, 368, 573	
Indiana	262, 451, 561, 665	
Metropolitan	97, 247, 260, 363, 543, 555, 663	
Milwaukee	99, 346, 449, 543, 570	
New England	104, 245, 352, 370, 556, 665	
Northern California	106, 252, 349, 367, 545, 574, 659, 661	
Northwest	105, 251, 350, 369, 558	
Pennsylvania	98, 351, 367, 559, 657, 665	
Pittsburgh	464, 573	
Southern California	103, 251, 259, 365, 559, 574, 662	
St. Louis	572	
Washington	353, 372	
Wichita	574, 659	
Student Branch	558	
Transactions	265, 464	
Treasurer's report	190	
(See also Standardization Activities, S.A.E.)		
Screw Standardization	343, 536	
Shimmy		
A CURE FOR SHIMMY AND WHEEL KICK	230, 388	
Damping methods	392	
Frame, stiff, as remedy	232, 396	
Front-wheel tramp, analysis of	230, 389	
Gyroscopic forces	230, 390, 394	
Road unevenness as origin	232, 391, 395	
Steering system effects	230, 393, 394	
Suspension		
Independent, as cure	231, 334, 395, 396	
Mounting modification as cure	230, 248, 334, 393	
Tire effects	232, 388, 560	
Springs, Suspension		
Design formulas	106	
Independent	231, 334, 395, 396	
Motorcoach	62	
Mounting modification as cure for shimmy	230, 248, 334, 393	
Production	251	
Progress	248, 262, 334, 349	
Research	188	
Standardization	82, 211	
Springs, Valve		
Design formulas	140, 327, 328	
Frequency		
Formulas	137, 327	
High, preferable	228, 322, 324	
Progress	36	
Steels	141, 227, 228, 325, 326, 327, 329, 330	
Stresses	324	
Surge		
ELECTRIC TELEMEETER AND VALVE-SPRING SURGE	228, 315	
Camshaft vibration as cause	328	
Damping	141	
Dimensions, spring, as cause	141	
Telemeter for study of	228, 316, 326	
Springs, Valve (Concluded)		
Valve-lift as cause of		
Variable-pitch effects		
Vibration indicator		
Standardization		
STANDARDIZATION IN THE AUTOMOBILE AND IN THE AERO-NAUTIC INDUSTRY		
Army-Navy	264, 340	
Body ventilation	223	
Brake	302	
Conveyor	58, 59	
Extent	31	
Grinding wheel	242, 633	
Necessity of	30	
Standardization Activities, S.A.E.		
Aeronautic		
Axle	208, 537, 664	
Instrument mounting and case	445, 537	
Lighting	88, 146, 298, 343	
Magneto mounting	541	
Open Standards Conference	447	
Progress	9, 13, 31, 457, 460	
Propeller-blade end and clamp-ring	340, 540	
Propeller-hub and shaft-end	73, 209, 340, 540	
Spark-plug	539	
Storage-battery	447, 538	
Tire and rim	208, 531	
Tachometer drive	540	
Tachometer-shaft connection	541	
Thermometer bulb	445, 541	
Wheel	208, 537, 664	
Axe, front, hub	75, 209	
Bearing, anti-friction, for electric motors	651	
Chassis record form	335	
Division reports	73, 209, 445	
Electrical equipment		
Conduit, non-metallic flexible	638	
Generator mounting	76, 210	
Rubber bushing	75, 210	
Spark-plug	314	
Starting-motor mountings	75, 210	
Timer-distributors	75, 210	
Electric vehicle charging plug and receptacle	75, 209	
Engine		
Exhaust pipe and muffler	637	
Fuel-pump mounting flange	636	
Number location	636	
Radiator drain-cock	636	
Rear-support arms	636	
Testing forms	636	
Tire-pump mounting	636	
Gage	84, 123, 211	
Grommet, rubber	340	
Handbook	264	
Lighting		
Head-lamp lens	77, 210	
Head-lamp mounting	77, 210	
Signal lamp	77, 210	
Tail lamp	76, 210	
Lubricant		
Crankcase-oil viscosity numbers	78, 210, 535	
Transmission oil	96, 207	
Mechanics' training	89	
Motorboat and Marine Engine		
Engine-bed timber	211	
Propeller-hub and shaft-end	78, 210	
Motor-truck		
Body and cab	88, 211, 352	
Capacity	352	
Trailer hitch	81, 211	
Number of standards	31	
Parts and fittings		
Key and keyway	642	
Rivet	205, 642	
Screw	343, 536	
Passenger-car		
Body-type nomenclature	637	
Bumper mounting	534, 642	
Enamel, black baking	637	
Glass, non-shatterable	637	
Spark and throttle	637	
Springs, leaf	82, 211	
Steering-wheel hub	637	
Trunk-rack	637	
Visor	637	
Procedure revised	536	
Roller chain	207	
Screw thread, bolt	85, 211	
Steel	446, 534	
Tire and rim	205, 638	
Tool		
Machine taper	340	
Milling cutter and arbor	88	
Tractor power-take-off speed	74, 209	
Transmission		
Clutch facing and housing	87, 211	
Control and gearshift position	87, 211	
Flywheel housing	87, 211	
Splines, side-bearing	96	
Steam Propulsion, Motorcoach		
Steels		
Case-hardening with cyanide salts	444	
Corrosive action on aluminum alloy	25	
Forging	446	
Gear	531	
Impurities	242	

PAGE	PAGE		
Steels (Concluded)			
Phosphorus and sulphur effects	446	Transmissions (Concluded)	
Propellers, aircraft	21	Motor-truck, need for	122, 483
Rivet	446	Operation	451
Spring, suspension	82, 211	Performance with	480
Spring, valve	141, 227, 228, 325, 326, 327, 329, 330	Progress	262, 333, 559
Stainless	263	Quietness questioned	484
Standardization	446, 534	Under-driving versus overdriving	121, 482, 485
Structural plates	446	Gas-electric, motorcoach	162, 171
Torsional modulus	330	Gear noise detector	122, 244
Valve	383, 450	Gear ratio, effect on fuel economy	293
Workability	242	Gearing, prize for paper on	305
X-ray analysis	331	Maintenance	559
Steering Gear		Progress	248, 262, 333, 348, 349
Analysis	230, 390	Reverse brake	122, 244, 262, 349, 451
Design for easy steering	388	Seven-speed motor-truck	559
Hub standardization	637	Spline standardization	96
Progress	248, 334	Synchro-mesh	248, 262, 333, 348, 559
Shimmy affected by	230, 393, 394	Three-speed	121, 483
Supercharging		Advantages of	248
Aircraft	386, 387, 656	Internal-gearred	560
Automotive	38	Vibration	(See also Gears)
Motorcoach	171	Transportation	
Racing restrictions on	665	Congestion	269
T		Container system, international, proposed	29
Taxicab Competition with Motorcoach	163	Foreign	289, 514
Temperatures		Importance of, to civilization	117
Brake	263, 296, 297, 299, 302, 303, 304, 305	Military	574, 654
Crankcase-oil	248	Railroad	
Diesel engine	180, 182	Freight terminal layout	428
Manifold	238, 598, 602	Motor-truck compared with	435
Measurement and control	165	Motor-truck used by	123, 336, 622
Testing		Regulation, national board proposed	272
Brake	300, 301	Traffic signals	161
Brake-lining	232, 296, 443	Types compared	
Engine		Air versus ground	371, 424, 575
Acceleration	610	Efficiency	371, 580
Humidity correction factors	158, 239	Passenger travel	172, 279
Gasoline	250	Private versus public	98, 279
Gum	222, 584, 589, 591	Street-car versus motorcoach	279
Vapor pressure	490	U	
General Motors Proving Ground	226, 364	Universal-Joints	
Headlighting	117, 187, 242, 558	Lubricant testing	605
Laboratories for	529	Progress	248, 333
Lubricant	151, 154, 606	V	
Motor-truck impact	242, 422	Valves	
Propeller, aircraft	18, 22	IDIOSYNCRASIES OF VALVE MECHANISMS AND THEIR	
Valve	134, 228, 316, 326	CAUSES	133, 227
Waukesha Motor Co.	570	Cooling	240, 248, 283, 286, 288
(See also Detonation, Testing)		Exhaust-valve, poppet	349, 450
Thermometer Bulb Standardization		Faulty action	
Tires	445, 541	Causes	133, 136, 227
Load and inflation tables	642	Effects	133, 136, 227, 317, 327
Motorcoach	63, 165, 170, 172, 350	Hydraulic valve-gear	37
Pneumatic versus solid	42, 43, 45, 48, 350	Instruments for study of	134
Progress	333	Lift curve	
Standardization	205, 638	Harmonics of	137, 142, 317
Vibration cause	232, 388, 560	Spring surge caused by	137, 227, 317, 327
Tools		Opening, increasing area of	36
Automatic	403, 572	Progress	332, 555
Grinding wheels	242, 633	Speed, effect on performance	136, 320, 327, 330
Labor and the machine	583	Steels	383, 450
Metal cutting	55, 634	Sticking, gasoline gum as cause of	222, 585
Service	249	Weight reduction	36
Standardization	88, 340	(See also Springs, Valve)	
Tractors		Vibration	
Power-take-off speed standardization	74, 209	Body	224, 232, 560
Use	592	Engine	237, 307, 560
Trailers		Frame	232, 396
Brakes	103	Rubber as cure for	247, 248, 332, 560
Hitch standardization	81, 211	Tire	232, 388, 560
Six-wheel truck compared with	48, 51	Transmission	560
Transmissions		W	
Bearings, power losses in	486	Wheels	
Clutch facing and housing standardization	87, 211	Alignment	188, 233, 242, 440
Control and gearshift position standardization	87, 211	Progress	333
Deficiencies of present	171	(See also Shimmy)	
Electric, rail-car	572	Wright Brothers' Medal	264, 547
Engine size, effect of increased	170		
Flywheel housing standardization	87, 211	X	
Four-speed		X-Ray Analysis	
AXLE RATIOS AND TRANSMISSION STEPS	120, 479	Fuels	372
Advantages of	485	Steel	333
